Supported by:

About the Event:

Plant derived products including nutraceuticals, pharmaceuticals etc. experienced 21 percent of market growth. The popularizations of scientifically validated herbal products are gaining interest globally. In the 11th International Congress of SFE (SFEC 2024), the Society for Ethnopharmacology a session on “*i-connect program: Business meet*” will be organized on February 16, 2024 to highlight crucial aspects of development of Ethnoentrepreneurship to explore the Bioresources. In this congress, stalwarts of herbal industries in India will share their knowledge and experience highlighting current scenario for promotion and development of herbal products, which will definitely helpful for sustainable development of bioresources to “make in India” concept.

This congress will provide the ideal platform to establish the linkage between academia and industries for benefit sharing and promotion of start-ups based on development of herbal medicinal products (AYUSH drugs, Phytopharmaceuticals, nutraceuticals etc.) to explore Traditional Medicines - Drugs from Nature; drugs from our Ancestors. We cordially invite you all to participate in this *i-connect* program and explore the opportunities!

SOCIETY FOR ETHNOPHARMACOLOGY (SFE)

“Globalizing local knowledge and localizing global technologies”

www.ethnopharmacology.in

Society for Ethnopharmacology, India is a registered under the West Bengal Society Registration act and affiliated to the International Society for Ethnopharmacology. The society was formed in 2013 and has made its presence with different activities throughout the country, for development and promotion of medicinal plants and ethnopharmacology. ISE INTERNATIONAL SOCIETY FOR ETHNOPHARMACOLOGY

www.ethnopharmacology.org

International Society for Ethnopharmacology (ISE) is an International scientific organization of researchers dedicated to the interdisciplinary study of the pharmacological actions of plants, animals, insects, and other organisms used in medicines of indigenous and modern, past and present cultures. The major objective of the ISE is to promote Ethnopharmacology as a scientific field of research. The society is dedicated to the exchange of information and understandings about people’s use of natural products and their bio-prospecting. For details please visit: www.ethnopharmacology.org

CSIR-IIIM

CSIR- INDIAN INSTITUTE OF INTEGRATIVE MEDICINE

www.iiim.res.in

CSIR-Indian Institute of Integrative Medicine (IIIM) has rich legacy of natural product research. The institute was established way back in 1941 having two wings viz. Research and Production. In 1957, Council of Scientific & Industrial Research (CSIR) of Govt. of India took over the research wing and renamed as Regional Research Laboratory, Jammu. Given its core strength in natural products-based drug discovery, the Institute redefined its mandate in 2005, and renamed as Indian Institute of Integrative Medicine (IIIM). CSIR-IIIM, Jammu, has state-of-the-art facilities to discover new drugs and therapeutics for mankind. The current mandate of IIIM is to be an internationally competitive centre of excellence in all facets of natural products research and technology. For details please visit: <https://iiim.res.in>
